WHY CHOOSE THE DALES COLLECTION?

**Fast and accurate
installation**

**A choice of styles
and colours**

**Door furniture backed
by 25-year guarantee**

**B-rated doors
as standard
(A-rated available)**

**Unrivalled
security**

**Secured By
Design and BM Trada
Q-Mark available***

**Doors delivered in
6 working days****

**10-year
guarantee**

- A** Insulated rigid foam infill panel – for enhanced thermal efficiency and acoustic performance
- B** Triple seal frame ensures the doors remain watertight in even the harshest weather conditions
- C** Tough GRP outerskin with woodgrain effect finish, available in 15 colours
- D** Optional aluminium low-threshold available – ideal for pushchairs and wheelchair access. Part M compliant threshold also available
- E** 100% recycled PVC-U Thermal Inserts in the frame provide ultimate thermal efficiency and enhanced sustainability (shown in green for illustration purposes only)

* This specification of door is available on request at point of ordering.
** This excludes doors with sidelights or toplights, which have an 11-day lead-time. Made to order colour range is 11 days.

the dales collection

FEATURES & BENEFITS

Range of sizes and styles

The Dales Collection of composite doors is available in a wide range of sizes, to suit most domestic requirements. We offer a choice of 12 styles in 15 colours and attractive glazing options. Whether you're looking for contemporary chic, traditional Edwardian or quaint cottage-style – The Dales Collection offers a door to suit every home.

Unrivalled security

With The Dales Collection, you needn't worry as our doors feature the latest 5-point locking technology for maximum security. PVC-U edge-banding* to both lock-side and hinge-side of the door helps to protect against damage. For further reassurance, all our composite doors and locks have been through rigorous tests which have earned them

the approval of the Association of Chief Police Officers' Secured by Design scheme and the Police Preferred Specification PAS23 & PAS24.

A choice of handles

We offer two types of lever / lever handles – choose the 'through spindle' option for standard handle functionality and the 'split spindle' option for added security benefits. The split spindle design activates the latch every time the door is closed. So if you leave the property, a key would be required to re-gain entry.

Low maintenance design

The GRP door leaf means there is no risk of splits or cracks. This outer skin is also less prone to scratching and denting than steel-faced doors.

Ultra high-security cylinder lock

5-point locking technology for maximum security

Triple glazed glass options available

Accessible for all – Part M threshold available

PVC-U thermal inserts in the frame

Long-life stainless steel furniture

Colour-matched weather bars available**

Secured By Design approved

BM Trada Q Mark

Superior thermal efficiency

A glass reinforced plastic (GRP) outer skin around a panel insulated with rigid foam means that our composite doors retain up to six times the heat of a timber door, keeping energy bills down. In fact, our composite doors are virtually draught proof and sound proof. Plus, PVC-U Thermal Inserts in the frame and PVC-U edge-banding on the door slab maximises energy efficiency.

Outstanding all-weather performance

A high-quality triple-seal frame system means that composite doors give outstanding performance for many years. Two brush seals and a gasket seal mean that drafts and rain are kept out, even in the fiercest weather conditions.

Easy installation

Composite doors are designed for simple, rapid, yet high-quality installation. They incorporate fitter-friendly three-way adjustable hinges and a wide frame for deep plaster reveals.

Accessible for all

Accredited low-level aluminium thresholds are available for Part M Building Regulations compliance, offering easy access for wheelchairs and pushchairs. The Eurocell composite door range is the ideal front or back door for those seeking easy access without compromise on style or performance.

Colour-matching

The Dales Collection doors are also available with colour-matched weather bars**.

* PVC-U edge-banding is available in White as standard, except for Golden Oak and Rosewood doors, which will be supplied with colour-matched edge-banding.

** Weather bar colour-matching only available for White, Green, Blue, Red and Black. Gold and Silver also available

QUICKER LEAD TIMES

6 DAY DELIVERY

If you choose a door that doesn't require a toplight or sidelight, we will deliver your door within 6 days* – guaranteed! This includes all triple glazed unit designs, examples shown below in the Chatsworth twin-vertical style.

▼ Triple-glazed

Diamond Classic

Andaman

Kara

▼ Glass config

All the above glass styles come with clear glass on the outer units and pattern, lead and obscurity on the centre unit as shown opposite. No backing glass option available on triple glazed units.

*This excludes doors with sidelights or toplights, which have an 11-day lead-time. Made to order colour range is 11 days.
