

Prices you **CANNOT** miss out on!

skypod[®]

Nothing transforms a room more than when it's flooded with natural light. It elevates the overall aspect and enhances darkened space to provide a lighter and brighter outlook. Skypod from Eurocell is a versatile and innovative system of skylights for pitched and flat roofs combining contemporary looks with exceptional build quality to inspire your clients with an exciting and new interior experience.

ultraframe

Transforming light and space

With fewer and slimmer bars than other systems, the Ultrasky Lantern has the flexibility to respond to your design aspirations. If you're building a flat roof extension with lantern, such as a house extension or orangery, you are sure to create a sense of interior space.

ultraframe

Transforming light and space

Add a sense of light and elegance to your home with a flat skylight. Our innovative rooflight appears frameless from the inside, due to its edge to edge glass design. This contemporary design brings more light into your home, giving you uninterrupted views of the sky.

No need for unsightly roof bars! Unlike any other roof, an Atlas lantern roof from Premier Roof Systems has no clunky bars or supports cluttering the roof and no thick chunky frame dominating the glazing. Through engineering excellence the exterior of the Atlas lantern roofs boast modern straight lines along with super slim 40mm frame. Independent tests prove Atlas offers the best thermal and strength performance available in the UK domestic conservatory market. As tested by the BBA.
